Re: Amendment to Remove Refuse Pile  
Savage Coal Terminal  
ACT/007/022 AMOEE  
Carbon County, Utah

Dear Ms. Littig:

Savage Industries, Inc. is herein submitting 3 copies of a proposed amendment to remove the refuse pile at the Savage Coal Terminal. The refuse will be taken directly to the Sunnyside Cogeneration Facility and burned in the small waste-coal fired power plant. It is my understanding that SCA has also submitted plans to permit a lay-down area to provide for a small surge pile for this material.

The amendment is being submitted as an Appendix to the Savage Coal Terminal M.R.P.; however, changes in the text of the plan have also been made where relevant to this proposal.

The basic plan is to begin removal of the refuse material in August of this year. At that time, approximately 5000 tons of material will be placed in the permitted lay-down area at the Sunnyside Facility, to provide for a small back-up or surge area as needed. After that, it is planned to haul approximately 450 to 600 tons/day of the refuse material directly to the power plant feed. This is intended to continue 7 days/week until the pile is removed and burned.

All environmental controls (i.e. - drainage, etc.) will be maintained throughout the removal process. There are no plans to reclaim the removal area in the near future, since this area will likely be used as a coal stockpile area for the life of the facility; however, it will be reclaimed per the plan when it is no longer required for the operation. A submittal has been made to OSM requesting a determination of the applicability of reclamation fees for this pile, along with information to support the request for a no value/fee determination. A ground control plan has also been submitted to MSHA for their approval of the removal of this pile.

*It is our hope this proposal will meet with your approval. If you have any questions, or need additional information, please let me know.*

*Sincerely,*

A handwritten signature in black ink, appearing to read "Dan W. Guy". The signature is fluid and cursive, with a long horizontal stroke at the end.

## APPLICATION FOR PERMIT PROCESSING

Permit Change ☒New Permit ☐Renewal ☐Transfer ☐Exploration ☐Bond Release ☐

Permit Number:

ACT/1007/022

Title of Proposal:

PROPOSED REMOVAL OF REFUSE PILE

Mine: SAVAGE COAL TERMINAL

Permittee: SAVAGE INDUSTRIES, Inc.

Description, include reason for application and timing required to implement:

Refuse to be burned in Sunnyside Cogeneration Facility.

**Instructions:** If you answer yes to any of the first 8 questions (gray), submit the application to the Salt Lake Office. Otherwise, you may submit it to your reclamation

## PROPOSED REMOVAL OF REFUSE PILE

Provide a detailed listing of all changes to the mining and reclamation plan which will be required as a result of this proposed permit application. Individually list all maps and drawings which are to be added, replaced, or removed from the plan. Include changes of the table of contents, section of the plan, pages, or other information as needed to specifically locate, identify and revise the existing mining and reclamation plan. **Include page, section and drawing numbers as part of the description.**

[illegible]

**Any other specific or special instructions required for insertion of this proposal into the Mining and Reclamation Plan?**
